PROFESSIONAL SUMMARY

ESG analyst with legal and commercial training, specialising in supplier sustainability assessment, GHG Protocol compliance, and ESG metrics reporting. At Aqualithic AI Consulting, consolidated Scope 1, 2, and 3 data from 15+ operational sources, developed Power BI dashboards tracking environmental KPIs for senior leadership, and identified a systematic Scope 2 underestimation - correcting procurement-cycle emissions calculations to ensure disclosure-ready accuracy. Legal background enables direct engagement with CSRD, SECR, and supplier conduct frameworks as primary sources. LBS MiM, Laidlaw Scholar (top 1% of cohort).

CORE COMPETENCIES

Supplier ESG Assessment | Sustainable Procurement Principles | GHG Protocol Compliance | ESG KPI Development & Reporting | Sustainability Metrics & Dashboards | Stakeholder Engagement | Regulatory Framework Analysis (CSRD / SECR / TCFD) | ESG Risk Identification

WORK EXPERIENCE

Aqualithic AI Consulting

Aug 2025 - Present

ESG Data Analyst | London, UK

- Conducted structured gap analysis and data validation on large ESG datasets, identifying supply chain and operational data inconsistencies ahead of external disclosure - directly analogous to supplier ESG assessment processes.
- Developed 6+ Power BI dashboards (DAX measures, executive KPI views) to track environmental KPIs, data completeness, and TCFD-aligned sustainability metrics for senior leadership reporting and annual sustainability outputs.
- Identified a systematic underestimation in Scope 2 consumption across client's global site energy data; rebuilt affected calculations using location-based and market-based methods to ensure ESG compliance and disclosure-ready accuracy.
- Consolidated Scope 1, 2, and selected Scope 3 emissions data across 15+ operational sources, increasing data coverage from 60% to 90% for the carbon baseline in line with GHG Protocol corporate standard.
- Applied 40+ emissions factors per GHG Protocol guidance; built SQL queries to automate factor lookups, reducing manual recalculation errors by an estimated 20%.
- Conducted emissions trend analysis identifying top categories contributing 35% of total footprint, supporting internal ESG prioritisation and procurement-cycle decarbonisation discussions.

The Baytree Centre

Dec 2024 - Feb 2025

Impact Consultant | London, UK

- Developed a data-driven corporate pitch deck that secured £300K+ in funding, underpinning each recommendation with quantitative evidence from beneficiary data, programme outcomes, and benchmarking research.
- Built 5+ financial and impact models in Excel to estimate programme reach, cost-per-beneficiary, and projected outcomes under different funding scenarios.
- Delivered a written recommendations report to senior leadership with supporting charts and a prioritised action plan - communicating complex analysis to a non-technical executive audience.

Project Asha

Feb 2025 - Jun 2025

Impact Consultant | London, UK

- Structured datasets across 15 districts to analyse education access gaps aligned with UN SDGs 1 and 4, improving resource allocation efficiency by 20%.
- Designed monitoring and evaluation frameworks to track programme outcomes, enabling data-driven continuous improvement across delivery teams.
- Produced UNSDG-aligned impact reports that improved cross-team alignment and supported communication with programme funders.

PROJECTS

SFR Medical - Market Entry Strategy London Business School Consulting

Led a 4-person team across a 10-week engagement to develop a pricing strategy and go-to-market plan for SFR Medical's new legal services division. Built a market sizing model processing 40,000+ Ministry of Justice case records; benchmarked 8 competitors; modelled 3 pricing scenarios. Delivered a 20-slide strategy deck directly influencing early service positioning decisions.

EDUCATION

Masters in Management (MiM) - London Business School Sep 2025

Laidlaw Women's Leadership Scholar - awarded to top 1% of cohort

Bachelor of Law (LLB) - National Law University, India Apr 2024

SKILLS

ESG & Sustainability: Scope 1/2/3 Emissions Accounting, GHG Protocol Corporate Standard, TCFD-aligned Disclosure, GRI Standards, SECR, CSRD, UN SDGs, Materiality Assessment, Supplier ESG Assessment, Carbon Baseline Development, ESG Data Governance

Data & Analytics: SQL, Advanced Excel (Power Query, Pivot Tables), Power BI (DAX, Dashboards), Tableau, ESG KPI Reporting, Large-Scale Dataset Validation, Emissions Factor Mapping, Data Visualisation

Commercial & Communication: Stakeholder Reporting, Executive Briefing, Cross-functional Collaboration, Impact Measurement, Market Sizing, Regulatory Research, Statutory Landscape Analysis
