Mithila Devarinti

+44 7549 677250 | mithiladevarinti@gmail.com | London, UK

PROFESSIONAL SUMMARY

ESG data analyst specialising in sustainability data governance, emissions accounting (Scope 1, 2 & 3), and disclosure-ready reporting. Experienced in building data validation frameworks, Power BI dashboards, and SQL pipelines that prepare sustainability data for external disclosures including CDP, EcoVadis, and TCFD-aligned submissions. Commercial rigour grounded in an LBS Masters in Management (Laidlaw Women's Leadership Scholar, top 1%) and hands-on ESG consulting experience.

CORE COMPETENCIES

Sustainability Data Governance | GHG Protocol (Scope 1/2/3) | CDP & EcoVadis Reporting | Data Validation & Quality Control | Power BI (DAX, Executive Dashboards) | SQL Data Pipelines | TCFD-Aligned Disclosure | Cross-Functional Stakeholder Reporting

WORK EXPERIENCE

Aqualithic AI Consulting

Aug 2025 - Present

ESG Data Analyst | London, UK

- Performed structured gap analysis and data validation on large ESG datasets, identifying inconsistencies in emissions data ahead of external disclosure preparation and ensuring accuracy across all reported categories.
- Consolidated Scope 1, 2, and selected Scope 3 emissions data across 15+ operational sources using structured data governance controls, increasing carbon baseline coverage from 60% to 90% in line with GHG Protocol corporate standard.
- Identified a systematic underestimation in Scope 2 consumption factors applied to global site energy data; rebuilt affected calculations using location-based and market-based methods to restore disclosure-ready accuracy.
- Built supporting SQL queries to automate sustainability data lookups and emissions factor application, reducing manual recalculation errors by ~20% and improving data pipeline reliability.
- Developed 6+ Power BI dashboards (DAX measures, executive KPI views) to visualise emissions trends, environmental KPIs, data completeness, and TCFD-aligned climate metrics for governance forums and senior leadership.
- Conducted emissions trend analysis identifying top emission categories contributing 35% of total footprint, supporting internal prioritisation and monthly sustainability metrics reporting.

Project Asha

Feb 2025 - Jun 2025

Impact Consultant | London, UK

- Structured datasets across 15 districts to analyse education access gaps aligned with UN SDGs 1 and 4, improving resource allocation efficiency by 20% and strengthening evidence-based decision making.
- Designed monitoring and evaluation frameworks to track programme outcomes, enabling data-driven continuous improvement across delivery teams.
- Produced leadership briefs and UNSDG-aligned impact reports that improved cross-team alignment and supported communication with programme funders.

The Baytree Centre

Dec 2024 - Feb 2025

Impact Consultant | London, UK

- Developed a data-driven corporate pitch deck that secured £300K+ in funding, grounding each strategic recommendation in quantitative evidence from beneficiary data, programme outcomes, and benchmarking research.
- Built 5+ financial and impact models in Excel to estimate programme reach, cost-per-beneficiary, and projected outcomes under different funding scenarios.
- Delivered a written recommendations report to the senior leadership team with supporting charts and a prioritised action plan.

PROJECTS

SFR Medical - Market Entry Strategy LBS Consulting Project

Led a 4-person consulting team to develop a market entry pricing strategy for SFR Medical's new legal services division. Built a market sizing model analysing 40,000+ Ministry of Justice case records across offence categories and regional jurisdictions. Benchmarked 8 competitor organisations and modelled 3 pricing scenarios; final deck directly influenced early fee structure and positioning decisions.

Excel (Power Query, advanced modelling) · Competitor benchmarking · Scenario analysis

EDUCATION

Masters in Management — London Business School Sep 2025

Laidlaw Women's Leadership Scholar (awarded to top 1% of cohort) · UK

Bachelor of Law (LLB) — National Law University Apr 2024

India · Regulatory literacy across statutory frameworks

SKILLS

ESG & Sustainability: Scope 1/2/3 Emissions Accounting, GHG Protocol Corporate Standard, TCFD-Aligned Disclosure, CDP, EcoVadis, GRI Standards, CSRD, SECR, UN SDGs, Carbon Baseline Development, Net Zero Strategy, ESG Data Governance

Data & Analytics: SQL (querying, joins, aggregations), Advanced Excel (Power Query, Pivot Tables, INDEX/MATCH), Power BI (DAX, Executive Dashboards), Tableau, Large-Scale Dataset Validation, Emissions Factor Mapping, ESG KPI Reporting

Research & Communication: Regulatory Research, Market Sizing & Competitor Benchmarking, Pricing Strategy, Stakeholder Reporting, Impact Measurement, Executive Briefing, Quantitative & Qualitative Analysis
